

# **Employee Nominations the Smart Way**

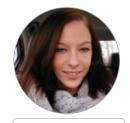

Award staff on a monthly, quarterly, or yearly basis in a fair and an automated process.

Innovation Award March 2016

Employee of Month April 2016

Safety Award Q1 2016

Employee of the Year 2015

### How it Works

Staff nominate others for different awards in the company, such as employee of the month or innovation award. Admins can view who was voted for the most and the reasons for the nomination. This is meant to be coupled with the Recognize on-the-spot recognition program.

### Our Manifesto

- We want to see every employee feel empowered.
- We want company admins to focus on the important stuff and less on repetitive administration.
- We want employees to know their company's recognition program is fair and is honest.

# Tips from the Experts

"Especially in our startup's first year, we did not have the ability to necessarily give financial raises to recognize our A-players. We have successfully recognized key team members by giving them a new title with additional responsibilities. This elevation showcases their leadership and growth within our company." —Jennifer Mellon, Trustify

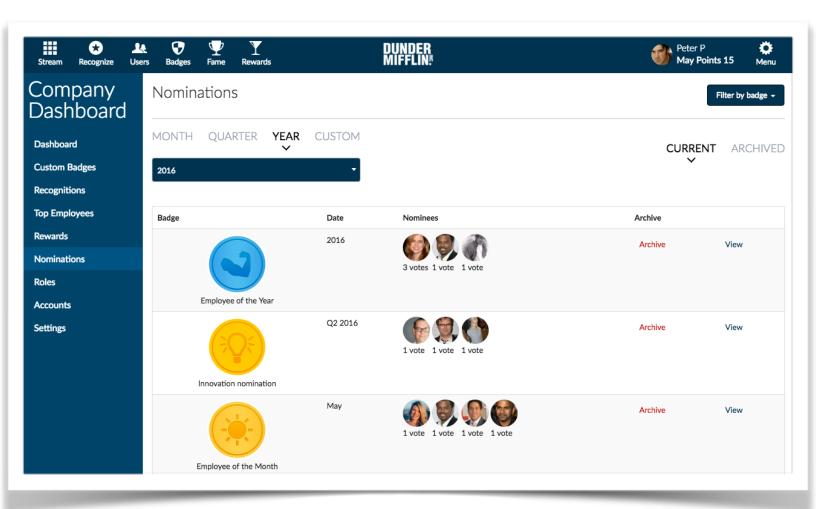

"It might be easy to say thank you to someone, but employees might not know the difference their contribution on the job today made to someone else. So tell them. Share how their actions have helped you, benefited a customer, made a manager elsewhere in the company stand up and take notice. Knowing a person made a difference gives purpose and meaning to their work." – Roy Saunderson, Rideau Recognition Solutions

"If you don't know who's responsible for a certain success that's been highlighted in the company, don't save your praise for just one person--thank the team as a whole, and watch morale grow." –Aaron Skonnard, Pluralsight

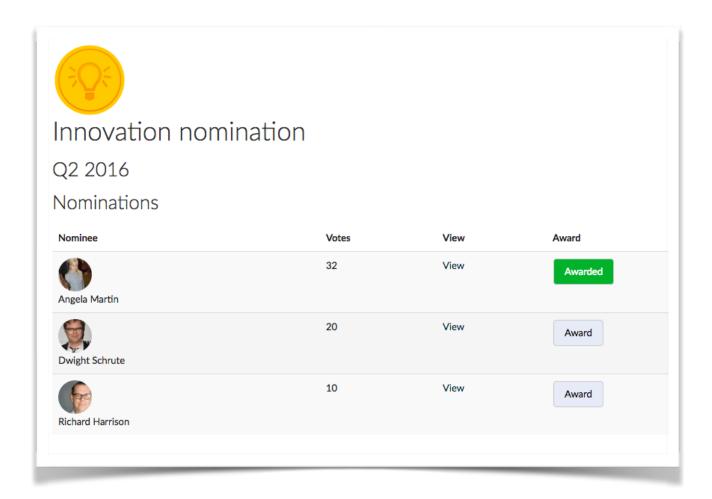

# **Recognize Nominations**

#### Admin Nominations

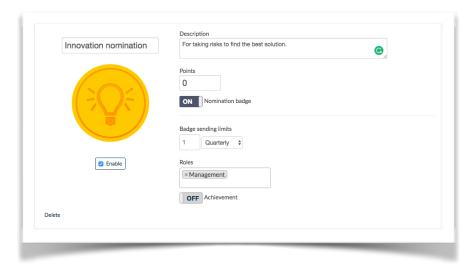

- Admins can view nominations for different time segments.
- See a snapshot of who received nomination for each award.
- Archive, and view archived, nominations.
- Filter by badge to jump to the nominations you care about.

A 500-person company with a spreadsheet/ email recognition system will save on average \$500/month switching to Recognize.

#### Nomination Details

- Viewing the details of the nominations includes who and how many votes.
- Admins can choose a winner if they wish.
- Dive deeper into the reasons for the nomination.

CREATING A NOMINATION BADGE Creating a nomination badge is as simple as creating a public recognition badge in Recognize.

Turn on nomination badge setting and put the points to zero.

Set the badge sending limits to monthly, quarterly, or yearly.

#### Sending a Nomination

- Sending a nomination is the same as sending a social recognition.
- Staff can choose a badge they are allowed to send.
- The recipient is not notified and the nomination is only presented to the admins.

RECOGNIZE THE WINNERS
Once the admins decide on a winner, the CEO can send a recognition only the CEO can send - an award recognition badge. Takes a few minutes to send and creates a lot of meaning for the employee.

# Why You Should Care

4 F 0/	Cited feeling un-valued as one of the top reasons
65%	for leaving. (CareerBuilder report)

	8%	Said "give recognition" as the way to improve
J (	O/0	employee <b>engagement</b> in a SHRM survey.

口	50	)/	Of recognition nominations are sent via email, lost
J	J	/0	forever in a sea of messages. (World at Work 2015)

Type of recognition award is **Certificates or plaques**. Cash, gift certificates, company logo merchandise, and food are the runners up. (World at Work 2015)

Decrease in turnover when companies successfully install a recognition and awards program. (Gallup)

Of companies believe digital badges have a positive impact. (Extreme Networks 2014)
